

KAISER, AT FRONT, PONDERING DETAILS OF REPLY TO U. S. NOTE

Early Drafts in Emperor's Hands at Galician Headquarters—Decision Expected to Be Reached by July 6.

BERLIN, July 2.—As the result of this week's conference on draft of the German reply to the American note, it is now in the hands of Emperor William at Army Headquarters.

High officials are endeavoring to bring about a friendly settlement of the question with America, and there is every reason to believe that they are anxious to accept the proposals as conciliatory and acceptable as possible.

These officials, however, have to reckon with the force of strong public opinion, which undoubtedly will oppose anything favoring complete acquiescence in the American proposals.

Friends of the settlement are working under these circumstances with considerable difficulty, and the note probably will represent a compromise not in accordance with their desires.

Representatives of the Foreign Office and of the Marine today had not finally decided upon the exact phraseology of some of the most important sections of the German reply.

Whether the reply will be satisfactory to American people, buoyed up by prediction of its favorable character, is another question of doubt.

GOVERNMENT SEIZES TUCKERTON WIRELESS

Continued from Page One. Was open to the inspection of the public. Suddenly, the gates were closed, watchmen were put on duty and a decided air of mystery arose.

Recent developments at the Sayville, L. I., station, have tended to heighten the curiosity of the community in regard to what is happening out on the meadows. They say that if the Government is running the plant permits to go through it should be given as is done in any other naval station.

THE WEATHER

Official Forecast. WASHINGTON, July 2.—For eastern Pennsylvania and New Jersey—Partly cloudy tonight and Saturday, with probably thunderstorms; not quite so warm tonight; light to moderate variable winds.

AUSTRIANS BY FIERCE ATTACKS TRY TO HALT ITALIANS AT GORIZIA

Terrific Battle Raging Along Isonzo—Both Armies Suffer Tremendous Losses—Rome Reports Capture of Peak Near Plezzo.

ROME, July 2.—Desperate fighting is in progress around Gorizia on the Isonzo River, where the Italian troops are struggling to open the way to Trieste.

Reports received from the front today state that in the fighting of Wednesday alone the Austrians, repulsed in their attacks, left 1200 dead on the slopes of the heights.

The War Office announced last night that the Italian troops have occupied the important position of Benikskendend, which dominates Pleszo, northwest of Tolmino.

There has been such heavy rain along the Isonzo that the trenches in that region are reported to be veritable streams and all activity has been stopped.

On the Carnic front, at Monte Croce pass and the Pal Piccolo, the Austrians, in a vain attempt to regain the positions they lost, have been throwing asphyxiating bombs.

ARMENIAN SURVIVORS HELD AS PRISONERS BY GERMAN U-BOAT

Shell From Submersible Cut Ropes as Crowded Lifeboat Was Lowered. Americans on Board Detained as Prisoners.

CARDIFF, Wales, July 2.—Several members of the crew of the torpedoed Leyland liner Armenian, among them Dr. J. S. Vio, of Richmond, Va., were made prisoners by the German submarine U-5 which sank the steamship, according to survivors who were picked up in Cardiff.

The high counsel of war held at Innsbruck seems already to have produced effect in renewed activity, perhaps under the direction of Prince Rupprecht of Bavaria, of Austro-German forces in the Tyrol and Trentino, where guns have been bombarding the Italian positions fiercely without appreciable results.

Two attacks were made by Austrian infantry, one in Val Sugana, the other from the Pass of Valcaldieri. Both were repulsed.

The first attack was met successfully by the Italian troops which occupied Monte Civarone, which dominates the valley of the Brenna, protecting the positions at Strigno and Carzana, already occupied by the Italian troops last week.

The attack at Carzana was repulsed with the help of troops coming over Monte Civarone. Elsewhere in Trentino the artillery duel has become intensified.

Until these fortifications are destroyed progress naturally must be slow. In the Carinthian Alps operations mark a further progress, and here Alpine troops have succeeded in occupying fresh positions.

The following official Belgian statement was issued at Havre today: "German artillery on Wednesday bombarded the country around Wippen, Ramscappelle, Pervyse, Scherpenvee, Gaele and the district south of Dixmude, as well as our positions on the Knocke front, including the 'Ferryman's House.' Our guns replied, dispersing several working parties of the enemy."

Descendant of Miles Standish Dies. NEW YORK, July 2.—The body of Miles Standish, last in the direct line of descendants of Miles Standish, the Puritan soldier whom Longfellow immortalized in his poem, "The Courtship of Miles Standish," was taken to New Bedford, Mass., today, where funeral services will be held tomorrow.

Standish was 86 years old. For many years he had been leading a retired life in New York.

U. S. CAN EXTRADITE HUERTA IN RESPONSE TO DEMAND

TEXAS GOVERNOR BOUND TO RESPECT REQUEST BY TREATY.

WASHINGTON, July 2.—General Victoriano Huerta is liable to extradition from Texas to the State of Chihuahua, Mex., on demand of the military authorities or the Civil Governor of Chihuahua under the treaty of 1899 between the United States and Mexico, the State Department today announced officially.

The department pointed out, however, that Huerta is in the hands of the Federal authorities, and after the conspiracy case against him he would have the right as a political refugee to appeal to a Federal court from State action in the extradition matter.

It is considered likely, therefore, that he would be sent over the border for some time to be tried by court-martial for the murder of Madero. The most that the Villa authorities can do to Huerta at present is to obtain his arrest in Texas and involve him in a legal struggle for his life, the department stated.

According to the department, the Governor of Texas is bound to consider the demand for deportation of Huerta when made to him by the Villa authorities in Chihuahua. If the Governor of Texas should honor the requisition of the Governor of Chihuahua, he would arrest Huerta as soon as the Federal charge now lodged against Huerta is disposed of.

A hearing on this charge is set for July 15. Then Huerta would appeal.

BRITISH PRESS MAINTAINS SINKING UNJUSTIFIED

STOUGH REVIVAL HERE MAY NOT MATERIALIZE

Mass-meeting Last Night for Purpose of Inviting Evangelist Suddenly Postponed.

Evangelist Henry W. Stough, defendant in the sensational damage suits brought by prominent Hasletton residents and who, it was thought, would come to this city next winter to conduct a revival among churches in the extreme northwest section of Philadelphia, may not come at that time.

The mass-meeting arranged for last night by the Religious Conditions Committee of the Interchurch Federation of the Twenty-first Ward and Vicinity, which was to have been held in the Leverington Presbyterian Church, Manayunk, was canceled, and the Rev. William B. Forney, president of the federation, said that nothing could be announced as to the future plans until the Rev. Isaac Ward, pastor of the Fourth Reformed Church, Roxborough, returns from a trip outside the city.

Mr. Ward, who is chairman of the committee which went to Reading several times and urged Doctor Stough to come to Philadelphia, has been one of the strongest advocates of the revival.

When announcement was made that Doctor Stough would come, there was some dissatisfaction among a number of clergymen and church members because they believed the proposed campaign would be too soon after the close of "Billy" Sunday's campaign, while other church leaders opposed it for other reasons.

It is probable that upon the return to the city of Mr. Ward, another mass-meeting will be called at which a definite decision will be reached as to whether the majority of the churches will stand back of a Stough tabernacle campaign.

ALLIES' TROOPS TAKE KRITHIA, SAYS REPORT FROM DARDANELLES

Anglo-French Army Forces Turks From Trenches in Greatest Battle Fought on Gallipoli—Both Armies Lose Heavily.

ATHENS, July 2.—The Allies opened a fierce assault upon the Turkish positions before Krithia Wednesday morning. Eight warships, led by the superdreadnought Queen Elizabeth, are pounding the Turkish forts with the greatest crash of metal since the attack upon Fort Kild Bahr more than three months ago.

Unconfirmed reports reached here last night that Krithia had fallen.

Military dispatches today reported the losses on both sides in the last week of fighting at the Dardanelles to be the heaviest of the Gallipoli campaign. The allied expeditionary forces are reported to have lost at least 10,000 killed, wounded and missing.

The Turkish casualties are believed to have been much heavier.

All dispatches received here today agreed that the struggle being waged around Krithia is the greatest land battle waged at the Dardanelles since the expeditionary forces were put ashore.

General Hamilton has concentrated his armies north of Sedd-ul-Bahr and is sweeping the Turks back along the peninsula by successive short rushes.

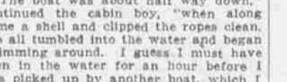

Each charge is preceded by terrific bombardment of the Turkish trenches by Anglo-French battleships standing inside the strait and along the shore of the Gulf of Sarcos. The trench fighting is of the most desperate character, Turkish and allied troops gripped in a hand-to-hand combat on the sands.

British Torpedoboot Damaged. LONDON, July 2.—The torpedoboot destroyer Lightning was damaged Wednesday night off the east coast by a mine or torpedo explosion. She is now in harbor. Fifteen members of the crew are reported as missing.

Announcement that the Lightning had been damaged was contained in an official communication issued by the British Admiralty.

Why Empire RED Rubber Makes Longer Wearing Tires

All rubber is perishable, but RED rubber lasts longer than gray. A RED rubber band or garden hose shows you the difference.

The Empire curing process admits the use of new live rubber only—no reclaimed stock. This is strengthened and toughened and the lively bounce imprisoned. Thus Empire RED Tires stay fresh and new much longer.

They don't wear out before their time, because they don't depreciate standing still, or decompose perceptibly at any time.

If other tires were proof against every other form of deterioration, friction would soon lay them low. But Empire REDS are poor heat conductors—they barely get warm under friction tests that blister most tires.

It's easy to determine whether you are paying too much for tires now. Put one or two Empire REDS on. If they don't deliver, we'll satisfy you.

See them at your dealer's "If it's RED, it's an EMPIRE"
